ASSIGNMENT 1

Create a program to return your string,"zone name"

PROGRAM

```solidity
// SPDX-License-Identifier: GPL-3.0
pragma solidity^0.8.1;

contract StringExample {
    string public myString = 'zone name!';

    function setMyString(string memory _myString) public {
        myString = _myString;
    }
}
```

OUTPUT
